REPORT OF AUDIT

Town of Dover

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the Board of Aldermen
Town of Dover
Dover, New Jersey

Opinions

We have audited the accompanying financial statements – regulatory basis of the Town of Dover, New Jersey (the “Town”), which comprise the comparative balance sheets – regulatory basis, of each fund and General Fixed Assets as of December 31, 2021 and 2020, and the related comparative statements of operations and changes in fund balance – regulatory basis, statements of revenues – regulatory basis and statements of appropriations – regulatory basis, of the Current Fund, Water Utility Operating Fund, and Parking Utility Operating Fund, and the related statement of changes in Fund Balance – Regulatory basis, of the General Capital Fund, Water Utility Capital Fund, and Parking Utility Capital Fund, for the years ended, and the related notes to the financial statements.

Unmodified Opinion on the Current Fund, Trust Funds, General Capital Fund, Water Utility Fund, Parking Utility Fund, and General Fixed Assets on Regulatory Basis Accounting

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the comparative financial position – regulatory basis, of each fund and General Fixed Assets of the Town as of December 31, 2021 and 2020, the respective operations and changes in fund balance – regulatory basis, revenue – regulatory basis and appropriations – regulatory basis of the Current Fund, Water Utility Operating Fund, and Parking Utility Operating Fund, the changes in fund balance regulatory basis of the General Capital Fund, Water Utility Capital Fund, and Parking Utility Capital Fund, for the years then ended, in accordance with the financial reporting provisions of the Division as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Town as of December 31, 2021 and 2020, and the changes in its financial position for the years then ended.

Emphasis of a Matter Regarding Pending Tax Appeals

As described in Note 18, the Town is the defendant in various tax appeals presently pending. Approximately \$22 million in total cumulative taxes of are being appealed as of December 31, 2021 from tax appeals dating back as far as 2007 not being settled. However, the Town is contesting these appeals and expects the amounts settled to be less. The Town has no reserve for tax appeals to fund the potential exposure from pending tax appeals.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Division and the standards applicable to the financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by the Town on the basis of the financial reporting provisions of the Division, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the requirements of the Division. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"). Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The information identified in the table of contents as Fund Financial Schedules is presented for purposes of additional analysis as required by the Division. The schedule of expenditures of federal awards and the schedule of expenditures of state financial assistance are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and N.J. Office of Management and Budget Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, respectively. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Fund Financial Schedules, Schedule of Expenditures of Federal Awards, and Schedule of Expenditures of State Financial Assistance are fairly stated in all material respects in relation to the financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 29, 2022, on our consideration of the Town's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

TOWN OF DOVER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Town of Dover (herein referred to as the “Town”) is organized as a Town Form of municipal government under the provisions of N.J.S.A. 40:62-1. The Town is governed by an elected Mayor and a Board of Aldermen, and by such other officers and employees as may be duly appointed. The Board of Aldermen consists of eight members all elected by wards which serve terms of two years beginning on the first day of January next following their election. Four Board of Aldermen positions are due for election annually by voters of the Town. The Mayor is also elected directly by the voters of the Town at large, and is also known as an “Alderman-at-Large”, whereby presiding over the deliberations of the Board of Aldermen. The Mayor serves a term of four years beginning the first day of January following the election.

The financial statements of the town include every board, body, officer or commission supported and maintained wholly or in part by funds appropriated by the Town, as required by N.J.S. 40A:5-5. The Governmental Accounting Standards board (GASB) establishes criteria to be used to determine which component units should also be included in the financial statements of the primary government (the Town). However, the State of New Jersey, Department of Community Affairs, Division of Local Government Services (the “Division”) requires the financial statements of the Town to be reported separately from its component units. However, the Town of Dover Free Public Library is discretely presented in the financial statements of the Town.

Basis of Presentation

GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. GASB codification establishes three fund categories to be used by general purpose governmental units when reporting financial position and results of operations in accordance with accounting principles generally accepted in the United States of America (GAAP).

The financial statements of the Town have been prepared in conformity with accounting principles and practices prescribed by the Division, which differs from GAAP. Such principles and practices prescribed by the Division are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Town accounts for its financial transactions through the following separate funds and account group, which differ from the fund structure required by GAAP.

Description of Funds

The accounts of the Town are maintained in accordance with the Division’s principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The Division’s principles of fund accounting require that resources be classified for accounting and reporting purposes into funds in accordance with activities or objectives specified for the resources. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The General Fixed Asset, on the other hand, is a financial reporting device designed to provide accountability for certain fixed assets and the investment in those fixed assets that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Current Fund – is used to account for all resources and expenditures for governmental operations of a general nature, including state and federal grants, for which the Town has not created a separate fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Description of Funds (continued)

Trust Funds – are used to account for receipts, custodianship and disbursement of dedicated revenues in accordance with the purpose for which each reserve was created, subject to available cash in each individual trust fund reserve established pursuant to applicable statutes or as an agent for individuals and other governmental agencies. The Town has the following Trust Funds:

Animal Control Trust Fund – is used to account for fees collected from dog and cat licenses and expenditures which are regulated by N.J.S.A 4:19-15.11.

Other Trust Fund – is used to account for the assets and resources held by the Town in a trustee or agent capacity. Included in this fund are monies collected and disbursed for the purposes of: developer escrow accounts, recycling program, forfeited asset deposits, uniform fire safety act penalties, recreation programs, historic preservation donations, accumulated absences, tax sale redemption and premiums, and employee and employer contributions and obligations resulting from the administration of unemployment benefits.

Payroll Agency Fund – is used to account for employee wages and withholdings and the disbursement of those funds to applicable agencies such as, but not limited to, the Federal and State government.

General Capital Fund – is used to account for the receipt and disbursement of funds for the acquisition of general capital facilities, other than those acquired in the Current Fund or other funds. Also included in this fund are bonds and notes payable offset by deferred charges to future taxation.

Water Utility Operating and Capital Funds – Account for the operations and acquisition of capital facilities on the municipally owned water utility.

Parking Utility Operating and Capital Funds – Account for the operations and acquisition of capital facilities of the municipally owned parking utility.

General Fixed Assets – is used to account for all fixed assets of the Town in accordance with N.J.A.C. 5:30-5.6, including the requirement for the Town to provide a Statement of General Fixed Assets. Formerly identified as an account group, GASB eliminated the use of this terminology with its passage of Statement No. 34.

Basis of Accounting

The Special Purpose Framework accounting principles and practices prescribed for municipalities by the Division differ in certain respects from GAAP applicable to local governments units. The current financial resources focus and modified accrual basis of accounting is generally followed with exceptions, the more significant of which are explained in the paragraphs that follow:

Revenues – Revenues are realized when received in cash except for certain amounts which are due from other governmental units. Receipts from federal revenue sharing funds and other federal and state grants are realized as revenue when anticipated in the budget. Receivables for property taxes and other amounts that are due the Town are recorded with offsetting reserves on the balance sheet of the Current Fund. Such amounts are not recorded as revenue until collected. Accordingly, no provision has been made to estimate that portion of receivables that are uncollectible. GAAP requires such revenue to be recognized in the accounting period in which they become measurable and available and in certain instances reduced by an allowance for doubtful accounts.

Reserve for Uncollected Taxes – Reserve for Uncollected Taxes is the minimum amount of which is determined on the percentage of collections experienced in the immediate preceding year, is required to provide assurance that cash collected in the current year will provide sufficient cash flow to meet expected obligations. A Reserve for Uncollected Taxes is not established under GAAP.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting (continued)

Expenditures – Expenditures are recorded on the “budgetary” basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the encumbrance accounting system. Appropriation reserves covering unexpended appropriation balances are automatically created at the end of each year and recorded as liabilities, except for amounts which may be canceled by the governing body. Appropriations for principal and interest payments on general capital indebtedness are provided on the cash basis. GAAP requires expenditures in the current (or general) fund, to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest on general long-term debt, which should be recognized when due.

Encumbrances – Encumbrances are contractual orders outstanding at year end reported as expenditures through the establishment of an encumbrance payable. Outstanding encumbrances at year end are reported as a cash liability in the financial statements. Encumbrances do not constitute expenditures under GAAP.

Appropriation Reserves – Appropriations are available until lapsed at the close of the succeeding year to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Transfers are allowed between certain line items during the first three months of the fiscal year. Lapsed appropriation reserves are recorded as other credits to income. Appropriation Reserves do not exist under GAAP.

Interfunds – Advances from the current fund are reported as interfunds receivable with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfunds receivable in the other funds are not offset by reserves. GAAP does not require the establishment of an offsetting reserve.

Inventories of Supplies - The costs of inventories of supplies for all funds are recorded as expenditures at the time the individual items are purchased. The costs of inventories are not included on the various balance sheets. GAAP requires the cost of inventories to be reported as a current asset and equally offset by a fund balance reserve.

Property Acquired for Taxes – Property Acquired for Taxes is recorded in the current fund at the assessed valuation when such property was acquired and is subsequently updated for revaluations of such property. The value of such property is fully reserved. GAAP requires such property to be recorded as a fixed asset at market value on the date of acquisition.

Deferred Charges to Future Taxation, Funded and Unfunded - Upon the authorization of capital projects, the Town establishes deferred charges for the costs of the capital projects to be raised by future taxation. Funded deferred charges relate to permanent debt issued, whereas unfunded deferred charges relate to temporary or non-funding of the authorized costs of capital projects. The Town may levy taxes on all taxable property within the Town to repay the debt. Annually, the Town raises the debt requirements for that particular year in the current budget. As the funds are raised by taxation, the deferred charges are reduced. GAAP does not require the establishment of deferred charges to future taxation.

Pension Liabilities – Note disclosures regarding pensions are required to the full extent of the applicable GASB Statements. However, financial reporting provisions of the Division do not allow for the accrual of net pension liabilities or pension expense in excess of obligations paid from current resources by budget appropriation. This is in contrast to the following GAAP requirements.

For defined benefit pension plans, cost-sharing employer is required by GAAP to recognize a liability for its proportionate share of the net pension liability and pension expense and report deferred outflows of resources and deferred inflows of resources related to pensions for its proportionate shares of collective pension expense and collective deferred outflows of resources and deferred inflows of resources related to pensions. In the case of a special funding situation, adjustments for the involvement of nonemployer contributing entities are required, as well as additional pension expense and revenue for the pension support of the nonemployer contributing entities.

TOWN OF DOVER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting (continued)

Pension Liabilities (continued) – For defined contribution benefit pension plans, an employer is required by GAAP to recognize pension expense for the amount of contributions to employees' accounts that are defined by the benefit terms as attributable to employees' services in the period, net of forfeited amounts that are removed from employees' accounts. A change in the pension liability is required to be recognized for the difference between amounts recognized in expense and amounts paid by the employer to a defined contribution pension plan.

Compensated Absences and Post-Employment Benefits - Compensated absences for vacation, sick leave and other compensated absences are recorded and provided for in the annual budget in the year in which they are paid, on a pay-as-you-go basis. Likewise, no accrual is made for post-employment benefits, if any, which are also funded on a pay-as-you-go basis. GAAP requires that the amount that would normally be liquidated with expendable financial resources to be recorded as an expenditure in the operating funds and the remaining obligations be recorded as long-term obligations.

Long-Term Obligations – General long-term debt is recognized as a liability of the General Capital Fund for the full amount.

Improvement Authorizations - in the general capital fund represent the unexpended balance of an ordinance appropriation and is similar to the unexpended portion of the budget in the current fund. GAAP does not recognize these amounts as liabilities.

Use of Estimates - The preparation of financial statements requires management to make estimates and assumptions that affect: the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Reserves (Other than Reserve for Receivables) – Reserves, other than the reserve for receivables, are considered liabilities, and not as a reservation of fund balance.

Reserve for Receivables – Receivables of the Town, with the exception of certain intergovernmental receivables, are offset on the balance sheet with a credit that is created to preserve the cash basis revenue recognition required by the Division's accounting principles. The reserve delays the recognition of these revenues until they are received in cash.

Deferred Inflows and Outflows – GAAP identifies resources which flow into or out of a government in a given fiscal year, but which are related to a future period, as deferred inflows and outflows. GAAP requires that deferred outflows of resources be reported in the financial statements apart from assets, and deferred inflows of resources apart from liabilities. Recognition of these resource flows as revenues and expenditures would be deferred to a future period. Though some note disclosures such as those related to pensions disclose the deferred inflows and outflows, financial reporting provisions of the Division do not allow for the separate reporting of deferred inflows and outflows in the Town's financial statements.

Fund Balance – Fund equity represented on the financial statements consists solely of fund balance, which is not further categorized with respect to reservations (portions of fund equity not available for appropriation or expenditure or legally segregated for a specific future use) or designations (plans for future use of financial resources). GAAP requires fund balance to be further identified with five classes: nonspendable, restricted, committed, assigned and unassigned. In addition, GAAP requires government-wide financial statements to report on three classes of net position on the accrual basis of accounting. Financial reporting provisions of the Division do not allow for such reporting on the accrual basis.

General Fixed Assets - Accounting for Governmental Fixed Assets as promulgated by the Division differs in certain respects from GAAP, and requires the inclusion of a statement of general fixed assets as part of the Town's basic financial statements.

Fixed assets used in governmental operations (general fixed assets) are accounted for as "General Fixed Assets" and are not included within the records of any fund types. Purchases from these funds for fixed assets are recorded as expenditures within the fund. Public domain (infrastructure) general fixed assets consisting of certain improvements, other than improvements to buildings, such as improvements to roads, bridges, curbs and gutters, streets and sidewalks and drainage systems, are not capitalized.

TOWN OF DOVER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting (continued)

General Fixed Assets (continued) - All fixed assets are valued at historical cost or, if purchased prior to December 31, 1985 and historical cost is not available, estimated historical cost. Expenditures for construction in progress are recorded in the Capital Fund against the authorizations under which the project was approved until such time as the construction is completed and put into operation. No depreciation has been provided for in the financial statements.

The Town is required to maintain a subsidiary ledger of detailed records of fixed assets and to provide property management standards to control fixed assets. General fixed assets are defined as non-expendable personal property having a physical existence, a useful life of more than five years and an acquisition cost of \$5,000 or more per unit. When acquired in a purchase separate from the building it is attached, fixed equipment is generally recorded as machinery and equipment.

Fixed assets acquired through grants in aid or contributed capital have not been accounted for separately.

GAAP requires the recording of infrastructure assets and requires capital assets be depreciated over their estimated useful life unless they are either inexhaustible or are infrastructure assets reported using the modified approach.

Sale of Municipal Assets - The proceeds of the sale of municipal assets can be held until made available through a future budget appropriation. GAAP requires such proceeds to be recorded as revenue in the year of sale.

Cash and Investments - New Jersey governmental units are required to deposit public funds in a public depository. Public depositories are defined by statutes as any state or federally chartered bank, savings bank or an association located in New Jersey or a state or federally chartered bank, savings bank or an association located in another state with a branch office in New Jersey, the deposits of which are insured by the Federal Deposit Insurance Corporation (“FDIC”) and which receives or holds public funds on deposit, but does not include deposits held by the State of New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of securities which may be purchased by New Jersey local units.

The Town is also required to annually adopt a cash management plan and to deposit or invest its funds pursuant to the cash management plan. The cash management plan adopted by the Town requires it to deposit funds as permitted in N.J.S.A 40:5-15.1, so long as the funds are deposited in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey and requires all public depositories pledge collateral, having a market value of five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories in the collateral pool, is available to pay the full amount of their deposits to the governmental units.

In 2009, legislation revised GUDPA to provide higher levels of security and oversight appropriate to contemporary banking conditions. Among the increased protections and oversight, the revised GUDPA ensures a common level of deposit risk by each bank choosing to accept local government deposits, requires banks to fully collateralize deposits over \$200 million, implements enforcement protocol which allows the Department of Banking and Insurance to institute risk-based collateral requirements promptly when a bank shows signs of stress, provides enhanced oversight by the Department of banking and insurance and permits GUDPA certificates to be provided through an online system.

Cash Equivalents include certificate of deposits with a maturity date of three (3) months or less.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting (continued)

Budgets and Budgetary Accounting - an annual budget is required to be adopted and integrated into the accounting system to provide budgetary control over revenues and expenditures. Budget amounts presented in the accompanying financial statements represent amounts adopted by the Town and approved by the Division in accordance with the Local Budget Law. Budgets are adopted on the same basis of accounting utilized for the preparation of the Town's financial statements. The budgetary requirements herein outlined are applicable to only the Current Fund, and not the Trust Fund, Capital Fund and General Fixed Assets account group. However, statutes require the Town to adopt annually a three-year capital plan. This plan allows the governing body to expend or incur obligations for capital purposes only. Such projects under the plan must be adopted through capital ordinance.

The Town must adhere to procedures for adoption of its annual budget as established by the Division. These procedures include statutory deadlines of: February 10 for introduction and approval and March 20 for adoption. These dates are subject to extension by the Division by approval of the Local Finance Board. Appropriations within the adopted budget cannot be modified until the final two months of the year, at which time transfers between certain line items are allowed. Transfers from appropriations excluded from "CAPS" are prohibited unless they are between debt service appropriations. Under certain circumstances, emergency authorizations and insertions of items of revenue and appropriation are allowed by authorization of the governing body, subject to approval of the Division.

The Town must prepare its budgets in compliance with applicable laws capping the amounts by which it can increase the budgeted appropriations and tax levy. A description of both "CAPS" follows:

1977 Appropriation "CAP": The 1977 Appropriation Cap is calculated using the formulas and provisions of N.J.S.A. 40A:4-45.1 through 4-45.43a. The law was originally adopted in 1976 and was most recently amended in 2003. Under this law, the Town is permitted to increase its overall appropriations (with certain exceptions) by 2.5% or the "cost of living adjustment" (COLA), whichever is less. The COLA is calculated based on the traditional federal government inflation calculation. The Town can, when the COLA is less than or equal to 2.5%, increase its allowable inside-the-cap spending to 3.5% upon passage of a COLA Rate Ordinance.

2010 Levy "CAP": The 2010 Levy Cap is calculated using the formulas and provisions of N.J.S.A. 40A:4-45.44 through 45.47. It establishes limits on the increase in the total Town amount to be raised by taxation (tax levy). The core of the levy cap formula is a 2% increase to the previous year's amount to be raised by taxation, net of any applicable cap base adjustments and emergency or special emergency appropriations.

Special Emergency Appropriations: The Town may adopt ordinances under the provisions of N.J.S.A. 40A:4-55.1 through 55.7 authorizing special emergency appropriations to cover the cost of certain extraordinary expenses. Special emergency appropriations may be financed by surplus funds or special emergency notes authorized, renewed and paid over specified periods up to five years.

Basic Financial Statements

The GASB Codification also requires the financial statements of a governmental unit presented in the general purpose financial statements to be in accordance with GAAP. The Town presents the financial statements listed in the table of contents which are required by the Division and which differ from the financial statements required by GAAP.

Comparative Data - Comparative data for the prior year has been presented in the accompanying balance sheets and statements of operations in order to provide an understanding of changes in the Town's financial position and operations. Comparative data is not presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand.

Reclassifications - Certain reclassifications have been made to the prior year financial statement presentation to correspond to the current year's format. These reclassifications had no effect on fund balance and changes in fund balance.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basic Financial Statements (continued)

Reconciliation of Accounting Basis - As described throughout Note A, substantial differences exist between GAAP and the Special Purpose Framework prescribed by the Division. Reconciliation between the two would not be meaningful or informative and therefore is not provided herein.

NOTE 2. DEPOSITS AND INVESTMENTS

Deposits

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank failure, the Town will not be able to recover deposits or collateral securities that are in the possession of an outside party. The Town does not have a deposit policy for custodial credit risk. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are:

- a. Uncollateralized.
- b. Collateralized with securities held by the pledging financial institution.
- c. Collateralized with securities held by the pledging financial institution's trust department or agent but not in the Town's name.

All cash and cash equivalents on deposit as of the year ended December 31, 2021 and 2020 are partially insured by the FDIC up to \$250,000 for each depository. Deposits in excess of FDIC limits, as noted below, are entirely insured or collateralized by a collateral pool maintained by public depositories as required by the GUDPA (see Note 1 - Cash and Investments). Under GUDPA, financial institutions are not required to pledge collateral amounts covered by FDIC insurance. The Town's deposits of cash and cash equivalents at December 31, 2021 and 2020 are summarized in the following tables:

	2021		
	Town	Dover Free Public Library	Total
Insured - FDIC	\$ 250,000.00	\$ 252,071.52	\$ 502,071.52

Total Funds on Deposit	\$ 26,753,810.33	\$ 3,111,597.73	\$ 29,865,408.06

Concentration of Credit Risk - The Town places no formal limit on the amount the Town may invest in any one financial institution. All of the Town's deposits are with one financial institution.

Foreign Currency Risk - Foreign currency risk is the risk that changes in exchange rates will adversely affect deposits. None of the Town's deposits as of December 31, 2021 and 2020 were held in foreign currency.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 2. DEPOSITS AND INVESTMENTS (continued)

Investments

Foreign Currency Risk - Investments are also exposed to the same foreign currency risk as deposits. It is the risk that changes in exchange rates will adversely affect investments. The Town does not have any investments denominated in foreign currency as of December 31, 2021 and 2020.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Town does not have an investment policy regarding the management of credit risk.

Custodial Credit Risk - In the case of investments, custodial credit risk is the risk that, in the event of failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities in the possession of an outside party. Investments are exposed to custodial credit risk if they are uninsured, are not registered in the Town’s name and are held by either the counterparty or its trust department or agent, but not in the Town’s name.

Concentration of Credit Risk - The Town places no formal limit on the amount the Town may invest in any one issuer. New Jersey Statutes limit municipal investments to those specified and summarily identified in the first paragraph of the “Investments” section of this Note.

New Jersey statutes permit the Town to purchase the following types of securities when authorized by the cash management plan (described in note 1):

- ◆ Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America.
- ◆ Government money market mutual funds.
- ◆ Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor.
- ◆ Bonds or other obligations of the local unit or bonds or other obligations of school districts of which the local unit is a part or within which the school district is located.
- ◆ Bonds or other obligations having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by local units.
- ◆ Local government investment pools.
- ◆ Deposits with the State of New Jersey Cash Management Fund.
- ◆ Agreements for the repurchase of fully collateralized securities if (a) the underlying securities are permitted investments pursuant to the first and third bullets of this section, (b) the custody of collateral is transferred to a third party, (c) the maturity of the agreement is not more than 30 days, (d) the underlying securities are purchased through a public depository and (e) a master repurchase agreement providing for the custody and security of collateral is executed.

Investments are recorded at amount purchased or cost in financial statements. GAAP requires the recording of investments at fair value.

Fair Value Measurement - The Town categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are the quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The

NOTE 3. PROPERTY TAXES

Property Tax Calendar

Property tax revenues are collected in quarterly installments due February 1, May 1, August 1 and November 1. Property taxes unpaid on April 1 of the year following their final due date are subject to tax sale in accordance with State statutes. The amount of tax levied includes not only the amount required in support of the Town's annual operating budget, but also the amounts required in support of the other governments and dedicated taxes:

County Taxes - The Town is responsible for levying, collecting and remitting county and county open space taxes for the County of Morris. Operations is charged for the amount due the County for the year, based upon the ratables required to be certified to the County Board of Taxation by January 10 of the current year. Monies are forwarded to the County on a quarterly basis. In addition, operations is charged for the County share of Added and Omitted Taxes certified to the County Board of Taxation by October 10 of the current year, and due to be paid to the County by February 15 of the following year. As of December 31, 2021 and 2020, the Town had County taxes payable of \$7,197.41 and \$16,845.01, respectively.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 3. PROPERTY TAXES (continued)

School Taxes - The Town is responsible for levying, collecting and remitting school taxes for the local school district. Monies are forwarded to the school district on a monthly basis. Operations is charged for the full amount due to operate the local school district, and is based upon the annual County certification of apportionment of levies. As of December 31, 2021 and 2020, the Town had school taxes payable of \$1,252,989.23 and \$1,229,738.42, respectively.

Property Taxes Receivable

Reserve for Uncollected Taxes - Reserve for Uncollected Taxes is a non-spending item of appropriation required by statute to be included in the Town's annual budget. This appropriation protects the Town from taxes not paid currently by providing assurance that cash collected in the current year will provide sufficient cash flow to meet obligations as they become due. The minimum amount required to be appropriated in the budget is determined by the percentage of collections experienced in the immediate preceding year, unless the three-year average option is chosen. For the years ended December 31, 2021 and 2020, the budgeted reserve for uncollected taxes was \$779,462.87 and \$702,102.17, respectively.

Delinquent Taxes and Tax Title Liens - As described in Note 1, taxes receivable and tax title liens are realized as revenue when collected. Uncollected receivables are fully reserved, so no provision is made for the uncollectible portions of these taxes. For the years ended December 31, 2021 and 2020, property taxes receivable were \$404,242.63 and \$885,169.20 respectively and tax title liens receivable were \$466,597.66 and \$438,583.09, respectively.

Property Acquired by Tax Title Lien Liquidation - The value of properties acquired by tax title liens on December 31, 2021 and 2020 was \$204,400, each year.

Tax Overpayments - Overpaid taxes collected during the year and due to taxpayers either as a refund or tax credit are recorded as cash liabilities in the financial statements. Tax overpayments as of December 31, 2021 and 2020 were \$62,694.82 and \$54,948.85, respectively.

Prepaid Taxes - Taxes collected in advance are recorded as cash liabilities in the financial statements. Prepaid taxes as of December 31, 2021 and 2020 were \$290,030.12 and \$249,677.76, respectively.

NOTE 4. MUNICIPAL DEBT

Summary of Municipal Debt

The Local Bond Law, N.J.S.A. 40A:2, governs the issuance of bonds to finance general municipal capital expenditures. All bonds are retired in annual installments within the statutory period of usefulness. All bonds issued by the Town are general obligation bonds, backed by the full faith and credit of the Town. The term of bond anticipation notes, which are issued to temporarily finance capital projects, cannot exceed one year, but the notes may be renewed from time to time for a period not exceeding one year. All such notes must be paid or permanently financed no later than the tenth anniversary of the date of the original note. On or before the third anniversary date of the original note through the tenth anniversary date, a payment of an amount at least equal to the first legally payable installment must be paid or retired.

School Debt - The Town of Dover Board of Education is a Type II School District. As such, statutes require bonds and notes issued and authorized by the Board of Education to be included in the Town's statutory gross debt, but are not obligations of the Town. Only the amount of school district debt exceeding the school district's debt limit, if any, is included in the net debt of the Town.

Bond Anticipation Notes

The Town issues bond anticipation notes to temporarily fund various capital projects prior to issuance of serial bonds. The term of the notes cannot exceed one year, but the notes may be renewed from time to time for a period not exceeding one year. Generally, such notes may be paid no later than the close of the tenth fiscal year next following the date of the original notes. The Division also prescribes that notes cannot be renewed past the third anniversary date of the original note unless an amount equal to at least the first legally required installment is paid prior to each anniversary date.

The purposes for which these notes were issued as well as more detailed information of the above referenced information can be found in the table that follows:

NOTE 6. RETIREMENT SYSTEMS AND DEFERRED INCOME PLANS

Regulatory Basis Disclosure

Substantially all Town employees participate in the Public Employees Retirement System (PERS), Police and Fireman's Retirement System of New Jersey (PFRS) or the Defined Contribution Retirement Program (DCRP), all of which are multiple employer plans sponsored and administered by the State of New Jersey. The PERS and PFRS are cost sharing contributory defined benefit public employee retirement systems. The DCRP is a defined contribution plan. In addition, certain employees participate in the Town's Deferred Compensation Plan.

State-Managed Pension Plans - PERS

The PERS was established in January, 1955 under provisions of N.J.S.A. 43:15A and provides retirement, death, disability and post-retirement medical benefits to certain qualifying Plan members and beneficiaries. Membership is mandatory to substantially all full time employees and vesting occurs after 8 to 10 years of service for pension benefits. Significant modifications to enrollment, benefits and eligibility for benefits under the plan were made in 2007, 2008, 2010 and 2011. These changes resulted in various "tiers" which distinguish period of eligibility for enrollment. The delineation of these tiers is as follows:

- Tier 1: Employees enrolled before July 1, 2007.
- Tier 2: Employees eligible for enrollment after June 30, 2007 but before November 2, 2008.
- Tier 3: Employees eligible for enrollment after November 1, 2008 but before May 22, 2010.
- Tier 4: Employees eligible for enrollment after May 21, 2010 but before June 28, 2011.
- Tier 5: Employees eligible for enrollment after June 27, 2011.

Tier 1 and 2 employees must earn a base salary of \$1,500 or more to enroll in the plan. Pensionable salaries are limited to the IRS maximum salary compensation limits for Tier 1 employees and social security maximum wage for Tier 2 employees. Tier 2 employees earning over the social security maximum wage are eligible to participate in DCRP for the excess amount. Tier 3 employees must earn a base salary that is annually adjusted. As of December 31, 2021 and 2020 this base salary amount was \$8,400, each year. Employees earning between \$5,000 and the Tier 3 minimum base salary are eligible for participation in DCRP. Pensionable salaries are limited to the social security maximum wage. Employees earning over the social security maximum wage are eligible to participate in DCRP for the excess amount. Tier 4 and 5 employees do not have a minimum salary requirement to enroll, but must work a minimum of 32 hours per week. Employees not meeting the minimum hour requirement but that make over \$5,000 are eligible to enroll in DRCP. Pensionable salaries are limited to the social security maximum wage. Employees earning over the social security maximum wage are eligible to participate in DCRP for the excess amount.

Plan Benefits

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62 and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age of their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Each of the 5 Tiers have eligibility requirements and benefit calculations which vary for deferred retirements, early retirements, veteran retirements, ordinary disability retirements and accidental disability retirements. There is no minimum service requirement to receive these pension benefits. State-paid insurance coverage may be obtained after 25 years of service for employees in Tiers 1 through 4 and 30 years of service for Tier 5 employees.

State-Managed Pension Plans – PERS (continued)

Contributions and Liability

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and their employers. Such contributions may be amended by State legislation. Employers' contribution amounts are based on an actuarially determined rate. The annual employer contributions include funding for basic retirement allowances and non-contributory death benefits. The employee contributions include funding for basic retirement allowances and contributory death benefits. Contributions made by the Town and its employees for the previous two years are as follows:

Year Ended Dec. 31,	Town Contribution		Base Wages Subject to Contributions	Employee Contributions	
	Amount Paid or Charged	As a Percentage of Base Wages		As a Percentage of Base Wages	Amount Contributed
2021	\$ 589,942.69	15.9%	\$ 3,704,214.00	7.50%	\$ 278,089.75
2020	440,280.00	10.6%	4,159,105.00	7.50%	311,933.50

At June 30, 2021 and 2020, the Town's net pension liability for PERS, including the Town's proportionate share, was as follows:

Year Ended June 30,	Proportionate Share		Net Pension Liability
	Rate	Change	
2021	0.06095%	-0.00781%	\$ 7,220,822
2020	0.06876%	0.00771%	11,213,305

Sensitivity of the Town's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Town's proportionate share of the net pension liability as of June 30, 2021 and 2020, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1% lower or 1% higher than the current rate:

State-Managed Pension Plans – PERS (continued)

Actuarial Assumptions

The total pension liability for the June 30, 2021 and June 30, 2020 measurement dates were determined by actuarial valuations as of July 1, 2020 and 2019, respectively, which were rolled forward to June 30, 2021 and 2020, respectively. These actuarial valuations used the following actuarial assumptions, applied to all periods in the measurement:

	For Measurement Date of:	
	June 30, 2021	June 30, 2020
Inflation Rate		
Price	2.75%	2.75%
Wage	3.25%	3.25%
Salary Increases:		
Through 2026	2.00-6.00%	2.00-6.00%
	based on years of service	based on age
Thereafter	3.00-7.00%	3.00-7.00%
	based on years of service	based on age
Investment Rate of Return	7.00%	7.00%

Mortality – For the June 30, 2021 Measurement Date, preretirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7 adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021 for the June 30, 2021 measurement, and MP-2020 for the June 30, 2020 measurement, respectively. The Actual assumptions used in the July 1, 2020 and July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2021 and June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS target asset allocations as of June 30, 2021 and 2020 are summarized in the following table:

Discount Rate – The discount rate used to measure the total pension liability was 7.00% as of June 30, 2021 and June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 100% of the actuarially determined contributions for the State employer as of June 30, 2021 and 78% of the actuarially determined contributions for the State employer as of June 30, 2020 and 100% of actuarially determined contributions for the local employers for both June 20, 2021 and June 30, 2020. Based on these assumptions, the plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

State-Managed Pension Plans – PFRS

In June 2022, the New Jersey Division of Local Government Services issues Local Finance Notice 2022-12 which allows local unit to disclose the most recently available information as it relates to the New Jersey Division of Pension and Benefits reporting on GASB 68. As of the date of this report the information for PFRS for the period ended June 30, 2021 was not available, therefore the information dated June 30, 2020 is disclosed.

The PFRS was established in July, 1944, under the provisions of N.J.S.A. 43:16A to provide coverage to substantially all full time county and municipal police or firefighters and state police appointed after June 30, 1944. Membership is mandatory for such employees with vesting occurring after 10 years of membership. Significant modifications to enrollment, benefits and eligibility for benefits under the plan were made in 2010 and 2011. These changes resulted in various “tiers” which distinguish period of eligibility for enrollment. The delineation of these tiers is noted below:

- Tier 1: Employees enrolled before May 22, 2010.
- Tier 2: Employees enrolled after May 21, 2010 but before June 29, 2011.
- Tier 3: Employees enrolled after June 28, 2011.

There is no minimum salary requirement to enroll, regardless of tier. Pensionable salaries are limited to the social security maximum wage for Tier 2 and 3 employees and federal pensionable maximum for Tier 1 employees. Employees earning over the social security maximum wage are eligible to participate in DCRP for the excess amount.

NOTE 6. RETIREMENT SYSTEMS AND DEFERRED INCOME PLANS (continued)

State-Managed Pension Plans – PFRS (continued)

Plan Benefits

Service retirement benefits are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service, as defined, up to 30 years plus 1% for each year of service in excess of 30 years. Members may seek special retirement after achieving 25 years of creditable service, in which benefits would equal 65% (tiers 1 and 2 members) and 60% (tier 3 members) of final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years. Members may elect deferred retirement benefits after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service.

Contributions and Liability

The contribution policy for PFRS is set by N.J.S.A. 43:16A and requires contributions by active members and their employers. Such contributions may be amended by State legislation. Employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. The annual employer contributions include funding for basic retirement allowances and non-contributory death benefits. The employee contributions include funding for basic retirement allowances and contributory death benefits. Contributions made by the Town and its employees for the previous two years are as follows:

Year Ended Dec. 31,	Town Contribution		Base Wages Subject to Contributions	Employee Contributions	
	Amount Paid or Charged	As a Percentage of Base Wages		As a Percentage of Base Wages	Amount Contributed
2021	\$ 1,623,452.66	28.5%	\$ 5,699,684.00	10.00%	\$ 569,968.40
2020	1,317,120.00	25.5%	5,304,749.00	10.00%	530,474.90

Under N.J.S.A. 43:16A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation which legally obligates the State is as follows: Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001.

The amounts contributed on behalf of the Town under this legislation are considered to be a special funding situation. As such, the State is treated as a non-employer contributing entity. Since the Town does not contribute under this legislation directly to the plan (except for employer specified financed amounts), there is no net pension liability to report in the financial statements of the Town related to this legislation. However, the notes to the financial statements of the Town must disclose the portion of the State's total proportionate share of the collective net pension liability that is associated with the Town. At June 30, 2020 and 2019, the Town's net pension liability for PFRS, including the special funding situation described above and changes in the Town's proportionate share, was as follows:

Year Ended June 30,	Town (Employer)		Net Pension Liability	State of N.J. (Nonemployer)	
	Proportionate Share Rate	Change		On-Behalf of Town	Total
2020	0.14581%	0.02154%	\$ 18,840,057	\$ 2,923,891	\$ 21,763,948

Sensitivity of the Town’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Town’s proportionate share of the net pension liability of the as of June 30, 2020 and 2019, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	2020		2019	
	Rate	Amount	Rate	Amount
At:				
1% Decrease	6.00%	\$ 25,053,398	5.85%	\$ 20,509,256
Current Discount Rate	7.00%	18,840,057	6.85%	15,173,658
1% Increase	8.00%	12,680,141	7.85%	10,757,682

Actuarial Assumptions

The total pension liability for the June 30, 2020 and June 30, 2019 measurement dates were determined by actuarial valuations as of July 1, 2019 and 2018, respectively, which were rolled forward to June 30, 2020 and 2019, respectively. These actuarial valuations used the following actuarial assumptions:

	For Measurement Date of:	
	June 30, 2020	June 30, 2019
Inflation Rate		
Price	2.75%	2.75%
Wage	3.25%	3.25%
Salary Increases:		
Through all future years (based on years of service)	3.25-15.25%	3.25-15.25%
Investment Rate of Return	7.00%	7.00%

Mortality – For the June 30, 2020 and June 30, 2019 Measurement Date, preretirement mortality rates were based on the Pub-2010 Safety Employee Mortality table with a 105.6% adjustment for males and 102.5 adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Safety Retiree Below-Median Income Weighted mortality table with a 96.7% adjustment for males and 96.0% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For beneficiaries (contingent annuitants), the Pub-2010 General Retiree Below-Median Income Weighted mortality table was used, unadjusted, and with future improvement from the base year of 2010 on a generational basis. Disability rates were based on the Pub-2010 Safety Disabled Retiree mortality table with a 152% adjustment for males and 109.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020 for the June 30, 2020 measurement, and MP-2019 for the June 30, 2019 measurement, respectively.

Discount Rate – The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 78% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on these assumptions, the plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

NOTE 6. RETIREMENT SYSTEMS AND DEFERRED INCOME PLANS (continued)

State-Managed Pension Plans – PFRS (continued)

Actuarial Assumptions (continued)

The discount rate used to measure the total pension liability was 6.85% as of June 30, 2019. This single blend discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% as of June 30, 2019, and a municipal bond rate of 3.50% as of June 30, 2019, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be made based on the contribution rate in most recent fiscal year. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2076 as of June 30, 2019. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2076 as of June 30, 2019, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at both June 30, 2020 and June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PFRS target asset allocations as of June 30, 2020 and 2019 are summarized in the following table:

June 30, 2019			June 30, 2020

State-Managed Pension Plans - General

The State established and administers a Supplemental Annuity Collective Trust Fund (SACT) which is available to active members of several State-administered retirement systems to purchase annuities to supplement the guaranteed benefits provided by their retirement system. The State or local government employers do not appropriate funds to SACT.

The State also administers the Pension Adjustment Fund (PAF) which provides cost of living increases, equal to 60 percent of the change in the average consumer price index, to eligible retirees in all State-sponsored pension systems except SACT. The cost of living increases for PFRS and PERS are funded directly by each of the respective systems and are considered in the annual actuarial calculation of the required State contribution for that system.

According to state statutes, all obligations of PERS and PFRS will be assumed by the State of New Jersey should the PERS and PFRS be terminated.

PERS and PFRS Fiduciary Net Position

The State of New Jersey issues publicly available financial reports that include the financial statements, required supplementary information and detailed information about the fiduciary net position of the PERS and PFRS. These financial statements were prepared in accordance with accounting principles generally accepted in the United States. This report may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295 or accessed at www.state.nj.us/treasury/pensions.

Defined Contribution Retirement Program

The DCRP provides eligible members with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Individuals eligible for membership in the DCRP include (a) state or local officials elected or appointed to new office on or after July 1, 2007, (b) employees enrolled in PERS on or after July 1, 2007 or PFRS after May 21, 2010 who earn salary in excess of established maximum compensation limit and (c) employees otherwise eligible for PERS on or after November 2, 2008 or PFRS after May 21, 2010 that earn below the minimum PERS or PFRS salary but more than \$5,000 annually.

Vesting occurs upon commencement of the third year of membership. Should the vesting period not be reached, contributions will be refunded to the appropriate contributing parties. Employer matching contributions and earnings are only available after the age of 55. Distributions render the member retired and ineligible for future participation in any State-administered plans. Otherwise, distributions are available at any time as lump sum, fixed term or life annuity.

Members are covered by employer-paid life insurance in the amount of 1 ½ times the annual base salary on which DCRP contributions was based. Members are also eligible for employer-paid long-term disability coverage after one year of participation. Eligibility occurs after six consecutive months of total disability. Members would receive a regular monthly income benefit up to 60% of the base salary on which DCRP contributions were based during the 12 months preceding the onset of the disability, offset by any other periodic benefit the member may be receiving. Benefits will be paid until the age of 70 so long as the member remains disabled and has not begun receiving retirement annuity payments.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of the DCRP. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625-0295.

Employers are required to contribute at an actuarially determined rate. Employee contributions are based on percentages of 5.50% for DCRP of employees' annual compensation, as defined. The DCRP was established July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 and expanded under the provisions of Chapter 89, P.L. 2008. Employee contributions for DCRP are matched by a 3% employer contribution.

For DCRP, the Town had 24 employees enrolled and contributed \$9,153.50 and \$9,431.12 for the years ended December 31, 2021 and 2020, respectively. Employee contributions to DCRP amounted to \$16,684.11 and \$18,223.82 for the years ended December 31, 2021 and 2020, respectively.

Deferred Compensation Plan (unaudited)

The Town has established a deferred compensation program for its employees under Section 457 of the Internal Revenue Code. The program is comprised of three separate plans, all of which are Public Employees' Deferred Compensation Plans, covering employees and elected officials who perform services for the Town. One plan is underwritten by the Nationwide Retirement Solutions, Inc, another by Transamerica Life Insurance, and the last by Variable Annuity Life Insurance Company ("VALIC").

The Plans are a tax-deferred supplemental retirement program that allows Town employees to contribute a portion of their salaries, before federal taxes, to a retirement account. Contributions, or deferrals, are made through payroll deductions. Individuals are 100% vested. Distributions are not available to employees until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are solely property and rights of the individual contributors and are not subject to the claims of the Town's general creditors.

Assets of the plans are invested in various mutual funds at the discretion of the participants.

NOTE 7. POST-EMPLOYMENT BENEFITS

Post-Employment Benefits Plan

Plan Description

The provisions of Chapter 88, P.L. 1974, along with any Town approved ordinances and resolutions, provide the authority for the Town to offer post-employment health care benefits as detailed below.

The Town provides medical, prescription during, and dental to retirees and their covered dependents that meet the appropriate requirements. The Town provides Medicare Part B reimbursements to Policemen's Benevolent Association and Superior Officer Association retirees and their covered dependents after 25 years of service. All active employees who retire from the Town and meet the eligibility criteria receive these benefits. As of February 1, 2009, new hires are no longer eligible for lifetime post employment health care benefits.

Employees are eligible to receive postretirement health care benefits through the Town health plan by meeting either of the following criteria:

- Retirees after 25 years or more of service in the State Pension Plan, or
- Retirees at age 60 with at least 20 years of service in the State Pension Plan, or
- Retirees at age 55 or older with at least 25 years of service in the State Pension Plan.

Contributions

The Town subsidizes 100% of the cost of coverage for current retirees meeting the requirements outlined above and for future retirees who have at least 25 years of service as of May 21, 2010, the Town will reimburse 100% of eligible Police Benevolent Association and Superior Officer Association retiree's Medicare Part B premiums.

NJ Chapter 78 requires that future retirees contribute toward the cost of their benefits. Specifically, those who had retired prior to passage of Chapter 78 and those employees that had more than 25 years of service on the date of passage are grandfathered. All others are subject to the contribution rates in effect when they retire, but not less than 1.5% of their annual retirement allowances from the Public Employees Retirement system. For purposes of this valuation and for conservatism, it was assumed that future retiree contribution percentage rates will not increase. Thus, it was assumed that a future retiree will contribute their current employee contribution as reported by the Town increased annually by the medical trend rate.

GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pensions*, ("GASB 75"), is effective for fiscal years beginning after June 15, 2017, and replaces the requirements of GASB Statement No 45, *Accounting and Financial Reporting by Employers for Postemployment Benefit Plans Other Than Pensions*. Under GASB 75 the Town would recognize the cost of other postemployment benefits (OPEB) in the year when the employee services are received and report the accumulated liability for OPEB on the face of its financial statements. Under the regulatory basis of accounting prescribed by the Division, the Town is not required to recognize the cost of OPEB in the year when the employee services were received or report the accumulated liability on the face of its financial statements. However, disclosure of such amounts is required. An actuarially calculated OPEB obligation is required to be obtained every two year for municipalities with 200 or more covered individuals. The Town obtained it's last actuarially calculated OPEB obligation at December 31, 2020.

Employees Covered by Benefit Terms

As of December 31, 2020, there were 119 retirees and dependents currently receiving retiree benefits and 118 active participants, of which 5 are eligible to retire as of the valuation date.

Total OPEB Liability

The Town's OPEB liability of \$100,116,676.00 was measured as of December 31, 2020 and was determined by an actuarial valuation as of December 31, 2020.

OPEB Expense

For the year ended December 31, 2020, the Town’s OPEB Expense was \$4,683,919.00 as determined by the actuarial valuation.

Special Funding Situation

Plan Description

The Town has members of the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan, with a special funding situation administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 52:14-17.25 et seq., to provide health benefits to State employees, retirees and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents. The SHBP was extended to employees, retirees and dependents of participating local public employers in 1964. Local employers must adopt a resolution to participate in the SHBP.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295 or by visiting their website at www.state.nj.us/treasury/pensions.

Funding Policy

Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis. Contributions to pay for the health premiums of participating retirees in the SHBP are billed to the Town on a monthly basis.

Under Chapter 330, P.L. 1997, the State shall pay the premium or periodic charges for the qualified local police and firefighter retirees and dependents equal to 80 percent of the premium or periodic charge for the category of coverage elected by the qualified retiree under the State managed care plan or a health maintenance organization participating in the program providing the lowest premium or periodic charge. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Therefore, the Town is considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a non-employer contributing entity. Since the Town does not contribute under this legislation directly to the plan, there is no net OPEB liability, deferred outflows of resources or deferred inflows of resources to report in the financial statements of the local participating employers related to this legislation. The State’s share of the net OPEB liability associated with the Town at June 30, 2020 was \$11,466,904, which represents 51 plan members and constituted 0.209928% of the State’s total proportionate share of the net OPEB liability. The State’s share of the net OPEB liability associated with the Town at June 30, 2019 was \$9,452,958, which represents 51 plan members and constituted 0.171072% of the State’s total proportionate share of the net OPEB liability.

Regulatory Basis Disclosure

In June 2022, the New Jersey Division of Local Government Services issues Local Finance Notice 2022-12 which allows local unit to disclose the most recently available information as it relates to the New Jersey Division of Pension and Benefits reporting on GASB 75. As of the date of this report the information for the period ended June 30, 2021 was not available, therefore the information dated June 30, 2020 is disclosed.

NOTE 8. COMPENSATED ABSENCES

The Town has permitted employees to accrue unused vacation and sick pay, which may be taken as time off or paid at a later date at an agreed-upon rate. The estimated total current cost of such unpaid compensation at December 31, 2021 and 2020 was approximately \$3,221,315 and \$1,757,999, respectively. However, it is expected that the cost of such unpaid compensation would be included in the Town's budget operating expenditures in the year in which it is used. At December 31, 2021 and 2020 these amounts were partially funded in the reserve for accumulated absences of \$105,478.83, respectively, on the trust fund balance sheets.

NOTE 9. RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Morris County Municipal Joint Insurance Fund

The Town of Dover is a member of the Morris County Municipal Joint Insurance Fund. This fund is both an insured and self-administered group of municipalities established for the purpose of providing certain low-cost insurance coverage for member municipalities in order to keep local property taxes at a minimum.

The following coverages are offered by these funds to its members:

- a) Workers' Compensation and Employers' Liability
- b) Liability Other Than Motor Vehicles
- c) Property Damage Other Than Motor Vehicles
- d) Motor Vehicle
- e) Public Officials' Liability Coverage
- f) Environmental Coverage

Members of the Morris County Municipal Joint Insurance Fund are also members of the Municipal Excess Liability Joint Insurance Fund which provides excess insurance for each of the coverages noted above, except for excess property coverage which is purchased by the Morris County Municipal Joint Insurance Fund from a commercial carrier.

As a member of the Fund, the Town could be subject to supplemental assessments in the event of deficiencies. If the assets of the Fund were to be exhausted, members would become responsible for their respective shares of the Fund's liabilities.

The Fund can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided amongst the members in the same ratio as their individual assessment relates to the total assessment of the membership body. The members may either receive payment or offset their subsequent year assessments with their respective share of the distribution.

As a member of this Fund, the Town could be subject to supplemental assessments in the event of deficiencies. If the assets of the Fund were to be exhausted, members would become responsible for their respective shares of the Fund's liabilities.

This Fund can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided amongst the members in the same ratio as their individual assessment relates to the total assessment of the membership body. The members may either receive payment or offset their subsequent year assessments with their respective share of the distribution.

As of the date of this report, the information for the period December 31, 2021 is not available. Selected, summarized financial information for the December 31, 2020 and 2019 audit reports for North Jersey Municipal Employee Benefits Fund is as follows:

New Jersey Unemployment Compensation Insurance

The Town has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the Town is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The Town is billed quarterly for amounts due to the State. The following is a summary of the Town and employees' contributions, interest earned, reimbursements to the State for benefits paid and the ending balance of the Town's expendable trust fund for the current and previous two years:

Year Ended Dec 31,	Town Contributions	Interest Earned	Employee Contributions	Amount Reimbursed	Ending Balance
2021	\$ -	\$ -	\$ -	\$ 1,609.66	\$ 48,159.91

	<u>\$ 54,479.85</u>	<u>\$ -</u>	<u>\$ 54,479.85</u>

The amounts appropriated in the succeeding years' budgets are not less than the amounts required by statute.

Special Emergency COVID-19 Related

In August 2002, P.L. 2020, C.74 was enacted and amended N.J.S.A. 40A:4-26 to allow municipalities to authorize special emergency appropriations for COVID-19 related costs, anticipated loss of revenue or deficits due to additional costs or loss of revenue due to COVID-19. Special emergency appropriations related to COVID-19 certified through the Division are eligible to be spread over several subsequent budgets as a deferred charge, rather than budgeted fully in the current or next year. The Town received Division approval to declare a COVID-19 related special emergency of \$2,276,014 and funded the special emergency with special emergency notes in advance of the close of fiscal year. Whereby, the Town was able to cancel the certified anticipated deficit by recording the deferred charge as a revenue. The Town recognized revenue of \$2,109,341.86 in the current fund and \$166,672.14 in the parking utility operating fund from special emergency for COVID-19 related funded in advance.

NOTE 15. ECONOMIC DEPENDENCY (continued)

The Town receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the Town’s programs and activities.

NOTE 16. AGGREGATION OF ENCUMBRANCES AND CONTRACTS PAYABLE

Other significant commitments include encumbrances and contracts outstanding for the Current, Federal and State Grant Fund, General Capital Fund, and Water Utility Operating and Capital Funds as shown below as of December 31, 2021 and 2020:

	2021	2020
Current Fund	\$ 199,991.18	\$ 375,176.78

Water Utility Capital Fund	66,070.55	111,280.71
	\$ 3,753,159.98	\$ 1,949,234.40

NOTE 17. TAX ABATEMENTS

The Town negotiates property tax abatement agreements on an individual basis. The Town has a tax abatement agreement with one entity as of December 31, 2021 and 20:

Purpose of Agreement	Taxing Government	Taxes if Billed at Full 2021	Received for Payments in Lieu of Taxes & Land Tax	Taxes Abated		Aggregate Reduction of Government Revenue
		TaxRate		Amount	(%)	
1. Construction of Age Restricted Housing Project, Including Low or Moderate Income Housing Units to Satisfy Affordable Housing Requirements	School	\$ 274,450.00	\$ -	\$ 274,450.00	100%	\$ -

	Borough	310,151.00	181,232.00	128,919.00	42%	-
	Total	\$ 649,309.00	\$ 181,232.00	\$ 468,077.00	72%	\$ -
Purpose of Agreement	Taxing Government	Taxes if Billed at Full 2020	Received for Payments in Lieu of Taxes & Land Tax	Taxes Abated		Aggregate Reduction of Government Revenue
		TaxRate		Amount	(%)	
1. Construction of Age Restricted Housing Project, Including Low or Moderate Income Housing Units to Satisfy Affordable Housing Requirements	School	\$ 271,103.00	\$ -	\$ 271,103.00	100%	\$ -
	County	64,708.00	-	64,708.00	100%	-
	Borough	298,994.00	191,754.14	107,239.86	36%	-
	Total	\$ 634,805.00	\$ 191,754.14	\$ 443,050.86	70%	\$ -

The full amount to be raised by taxes for support of each Government’s budget is levied on properties not subject to such agreements, therefore there is no aggregate reduction of tax revenue to the Governments as a result of the abatement.

This agreement was negotiated under the Long Term Tax Exemption Law, N.J.S.A. 40A:20-1 et seq (the Law), which authorizes municipalities to enter into financial agreements with Urban Renewal Entities. An Urban Renewal Entity is a limited-dividend entity or a nonprofit entity which undertakes redevelopment projects (both commercial and residential), relocation projects for residents displaced by the redevelopment area, and low and moderate income housing projects in return for tax exemptions, or payments in lieu of taxes referred to as “annual service charges”.

TOWN OF DOVER
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

NOTE 17. TAX ABATEMENTS (continued)

The Law allows annual service charges to be calculated as a percentage of either gross revenue from each unit of the project or from total project cost, if the project is not undertaken in units. In the case of low and moderate income housing projects, the annual service charge shall not exceed 15% of annual gross revenue or 2% of total project cost. For all other projects, the annual service charge shall not be less than 10% of annual gross revenue or 2% of total project cost. The Town's lone abatement is categorized as a low and moderate income housing project. There are a total of five stages in the abatement period. The final four phases require the Urban Renewal Entity to remit the greater of the agreed upon annual service charge or 20%, 40%, 60% and 80%, respectively, of the amount of taxes otherwise due on the value of the land and improvements.

The Law only allows for taxes on improvements to be abated. Taxes on land are billed quarterly to the Urban Renewal Entity and are credited against the annual service charges due. To administer the billing, the land value and improvement value of the abated property are separate line items in the tax assessment and collection records. The land value is billed quarterly at the total property tax rate. The improvement value is classified as exempt property (Class 15F), generating no bill.

Under the Law, abatements may provide for an exemption period of less than 30 years from the completion of the entire project or less than 35 years from the execution of the financial agreement. Further, Urban Renewal Entity profits are restricted and any excess profits are payable to the municipality as an additional annual service charge.

The Law does not provide for the recapture of abated taxes in the event an abatement recipient does not fulfill the commitment it makes in return for the tax abatement. However, in the event of default, the Town has the right to proceed against the property pursuant to the In Rem Tax Foreclosure Act, N.J.S.A. 54:5-1 and/or may terminate the agreement. The Town has not made any commitments as part of the agreements other than to reduce taxes. The Town is not subject to any tax abatement agreements entered into by other governmental entities.

NOTE 18. CONTINGENT LIABILITIES

Tax Appeals

The Town is a defendant in various tax appeals presently pending before both the Tax Court of New Jersey and Bergen County Board of Taxation. Approximately \$22 million in total cumulative taxes of are being appealed as of December 31, 2021 from tax appeals dating back as far as 2007 not being settled. However, the Town is contesting these appeals and expects the amounts settled to be less. In the past, the Town has paid for such appeals through budget appropriations and/or its reserve for tax appeals pending. As of the year ended December 31, 2021, the Town has no reserve in its tax appeals account to fund its potential exposure from tax appeals.

Grant Programs

The Town participates in several federal award and state financial assistance grant programs. Entitlement to the funds is generally conditional upon compliance with terms and conditions of the grant agreements and applicable regulations, including the expenditures of funds for eligible purposes.

Litigation

The Town, its officers and employees are defendants in a number of lawsuits, none of which is unusual for a municipality of its size and should be adequately covered by the Town's insurance program, defense program or by the Town directly and which may be settled in a manner satisfactory to the financial stability of the Town. The Town is also engaged in activities, such as police protection and public works construction, which could result in future litigation with a possible significant monetary exposure to the Town.

Jersey City Municipal Utilities Authority v. Town of Dover, et al

The matter has been in litigation for approximately twelve years. Special Counsel reports with respect to exposure, "Dover has already won the portion of the case that requires Jersey City to contribute its share towards operation and maintenance". The second part of the case is about what is actually operations and maintenance and what is capital improvements in a number of ongoing and upcoming projects by the Rockaway Valley Regional Sewerage Authority (RVRSA)." This decision will result in how much RVRSA will receive for these projects from the City of Jersey City and serviced municipalities, including the Town of Dover.

NOTE 19. DOVER FREE PUBLIC LIBRARY

The Dover Free Public Library (the “Library”) has its own governing Board of Trustees appointed by the Mayor of the Town under the advice and consent of the Board of Aldermen. Since the Library has historically not had its own audit performed, the Library has been retroactively included in the financial statements of the Town.

In 1943, a local resident had gifted a painting to the Town that had been held by the Library since before it was established as a free public library. The painting had been on loan to the Metropolitan Museum of Art from 2012-2018. On November 16, 2018, the painting had been sold for \$4,815,000.00, netting proceeds of \$4,160,000.00. The proceeds from the sale have been approved by the New Jersey State Librarian for designation to renovate the Library building under the direction of the Library Board of Trustees. The funds from the sale are being held in a trust by the Library. It has not been legally determined whether the Town or the Library is the legal custodian of the proceeds of the sale held in trust.

NOTE 20. SUBSEQUENT EVENTS

Subsequent events were evaluated through July 29, 2022, which is the date the financial statements were available to be issued. Material events are as follows:

\$28,988,000 Issuance of Notes - on May 25, 2022, the Town issued \$21,183,145 in notes, consisting of the \$19,969,000 Notes, Series 2022A (Tax Exempt), consisting of the \$17,725,000 Bond Anticipation Note and the \$2,744,000 Water Utility Bond Anticipation Note, and the \$1,214,145 Bond Anticipation Note, Series 2022B (Federally Taxable). These notes are due January 25, 2023 at an interest rate of 3.00%. The purpose of these notes was to provide funding for various capital projects, including payment at maturity of bond anticipation notes issued to finance such projects and pay for expenses incurred with the issuance of these notes.

\$1,214,145 Special Emergency Note – On May 25, 2022, the Town issued \$1,214,145 special emergency note, Series 2022B. This note is due May 25, 2023 at an interest rate of 2.975%. The purpose of these notes was to provide funding for various emergency appropriations and payment at maturity of special emergency note issued to finance such emergency appropriations and pay for expenses incurred with the issuance of this note.

REPORT OF AUDIT

GOVERNMENT AUDITING
STANDARDS SECTION

Town of Dover

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Honorable Mayor and
Members of the Board of Aldermen
Town of Dover
Dover, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), the financial statements – regulatory basis of each fund and General Fixed Assets as of and for the year ended December 31, 2021, and the related to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated July 29, 2022.

As described in Note 1, the Town prepares its financial statements on a basis of accounting prescribed by the Division that demonstrates compliance with a modified accrual basis and the budget laws of the State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Report Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purposes of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion of the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that is required to be reported under *Government Auditing Standards*.

We noted additional instances of noncompliance or other matters which are required to be reported under audit requirements prescribed by the Division, and which are described in the accompanying "Comments and Recommendations" section of this report.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

TOWN OF DOVER
NOTES TO SCHEDULES OF EXPENDITURES OF
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE
FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 1. REPORTING ENTITY

The Town of Dover (the “Town”), received and continues to participate in numerous federal award and state financial assistance programs, in the form of grant cost reimbursements and revenue sharing entitlements. The Town is the reporting entity for the grant programs received. Administration of the grant programs is performed by the various departments of the Town.

The Town, for purposes of the Schedule of Expenditures of Federal Awards and State Financial Assistance, includes all the funds of the primary government as defined by criteria established by the Governmental Accounting Standards Board Statement 14, The Financial Reporting Entity.

The Town administers certain federal and state award programs through subrecipients. Those subrecipients are not considered part of the Town’s reporting entity.

NOTE 2. BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance present the activity of all federal and state grant programs of the Town. All federal awards received directly from federal agencies or passed through other government agencies are included on the Schedule of Expenditures of Federal Awards. All state awards received directly from state agencies or passed through other government agencies are included on the Schedule of expenditures of State Financial Assistance.

The information in these Schedules are presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and audit Requirements for Federal Awards* (Uniform Guidance) and New Jersey OMB Circular Letter 15-08 *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Federal awards provided to sub-recipients are treated as expenditures when paid.

NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town conform to the accounting principles and practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the “Division”). Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Town accounts for federal awards and state financial assistance through the following accounting practices which differ from those required by accounting principles generally accepted in the United States of America.

The Town, in accordance with the Division’s directives, fully realizes revenues and charges appropriations when grants are adopted by the governing body in the budget of its Current Fund. The revenues are charged and the receivable accounted for in the State and Federal grants fund. Appropriations are charged and the amount allotted for spending is accounted for as an appropriated reserve. Programs within the General Capital Fund and various Trust Funds (other than the State and Federal Grants Fund) are accounted for within the equivalent revenue accounts for those respective funds. Expenditures are measured from payments charged directly to specific grant programs.

Local Contributions – Local matching contributions are required by certain federal and state grants. The amount of percentage of matching contributions varies with each program. Local matching contributions are raised in the Current Fund budget.

Indirect Costs - The Town is not utilizing the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 4. PASS-THROUGH AWARDS

The Town receives certain federal awards from pass-through awards of the state. The amounts received are commingled by the state with other funds and cannot be separately identified.

TOWN OF DOVER
NOTES TO SCHEDULES OF EXPENDITURES OF
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE
FOR THE YEAR ENDED DECEMBER 31, 2021

NOTE 5. CONTINGENCIES

Entitlement to the funds is generally conditional upon compliance with terms and conditions of the grant agreements and applicable laws and regulations. Federal and state grants, entitlements and cost reimbursements are subject to financial and compliance audits by grantors.

NOTE 6. MONITORING OF SUBRECIPIENTS

Under the requirements of the Single Audit Act and State regulations, if the Town, as a primary recipient, receives federal and state financial assistance and provides \$750,000 or more of such assistance to a subrecipient in a fiscal year, the Town is responsible for determining that the expenditures of federal and state monies passed-through to subrecipients are utilized in accordance with applicable laws and regulations.

NOTE 7. RELATIONSHIP TO FEDERAL FINANCIAL REPORTS

The regulations and guidelines governing the preparation of federal and state financial reports vary by federal and state agency and among programs administered by the same agency. Accordingly, the amounts reported in the federal and state financial reports do not necessarily agree with the amounts reported in the accompanying schedules of expenditures of federal awards and state financial assistance, which are prepared on the basis of accounting explained in Note 2.

NOTE 8. NO SINGLE AUDITS REQUIRED

The Town did not expend \$750,000 or more in federal or state funds, and is therefore not subject to a single audit in accordance with the Uniform Guidance and the provisions of the New Jersey OMB Circular Letter 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments.

CONTRACTS AND AGREEMENTS REQUIRED TO BE ADVERTISED PER N.J.S.A. 40A:11-3 AND 40A:11-4, et seq.

N.J.S.A. 40A:11-3 states “When the cost or price of any contract awarded by the contracting agent in the aggregate does not exceed in a contract year the total sum of \$17,500, the contract may be awarded by a purchasing agent or other employee so designated by the governing body when so authorized by ordinance or resolution, as appropriate to the contracting unit, without public advertising for bids, except that the governing body of any contracting unit may adopt an ordinance or resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations. If a purchasing agent has been appointed, the governing body of the contracting unit may establish that the bid threshold may be up to \$25,000 or the threshold amount adjusted by the Governor pursuant to subsection c. of this section. Such authorization may be granted for each contract or by a general delegation of the power to negotiate and award such contracts pursuant to this section.”

The current threshold amount as adjusted by the Governor is \$44,000. The Town has appointed a Qualified Purchasing Agent and has passed a resolution raising its bid threshold to the maximum allowable amount of \$44,000.

N.J.S.A. 40A:11-4 states “Every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefor, except as is provided otherwise in this act or specifically by any other law. The governing body of a contracting unit may, by resolution approved by a majority of the governing body and subject to subsections b. and c. of this section, disqualify a bidder who would otherwise be determined to be the lowest responsible bidder, if the governing body finds that it has had prior negative experience with the bidder.”

The governing body of the Town has the responsibility of determining whether the expenditures in any category will exceed \$44,000 within the fiscal year. Where questions arise as to whether any contract or agreement might result in a violation of the Statute, the opinion of Town’s Attorney should be sought before a commitment is made.

The minutes indicate that bids were requested by public advertisement and contracts awarded for the following items:

- Public Works Interior Project
- Capital Improvement Project (Roadways)
- Essex Street Roadway Improvements
- Municipal Capital Parking Improvements Project

Inasmuch as the system of records did not provide for an accumulation by categories of payments for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not be reasonably ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

Our examination of expenditures did not reveal any individual payments, contracts, or agreements in excess of \$44,000, "for the performance of any work, or the furnishing of any materials, supplies or labor, or the hiring of teams or vehicles," other than those for which bids had been previously sought by public advertisements or for which a resolution had been previously adopted under the provision of N.J.S.A. 40A:11-6.

CONTRACTS AND AGREEMENTS EXCEPTED FROM PUBLIC ADVERTISEMENT FOR BIDS PER N.J.S.A. 40A:11-5, et seq., 40A:11-6.1(b) AND 40A:11-12

N.J.S.A. 40A:11-12 states: “Any contracting unit under this act [the Town] may without advertising for bids, or having rejected all bids obtained pursuant to advertising therefore, purchase any goods or services under any contract or contracts for such goods or services entered into on behalf of the State by the Division of Purchase and Property in the Department of the Treasury.”

When utilizing state contracts, as the contracts are commonly referred to, the Town is required to place its order with the vendor offering the lowest price, including delivery charges, that best meets the Town’s requirements, and is also required to document such with specificity prior to placing the order.

CONTRACTS AND AGREEMENTS EXCEPTED FROM PUBLIC ADVERTISEMENT FOR BIDS PER N.J.S.A. 40A:11-5, et seq., 40A:11-6.1(b) AND 40A:11-12 (Continued)

The minutes did not indicate that any resolutions were adopted and advertised authorizing the awarding of contracts or agreements for “state contracts” per N.J.S.A. 40A:11-12.

N.J.S.A. 40A:11-5.1(a)(i) states: “Any contract the amount of which exceeds the bid threshold, may be negotiated and awarded by the governing body without public advertising for bids and bidding therefor and shall be awarded by resolution of the governing body if the subject matter thereof consists of professional services. The governing body shall in each instance state supporting reasons for its action in the resolution awarding each contract and shall forthwith cause to be printed once, in the official newspaper, a brief notice stating the nature, duration, service and amount of the contract, and that the resolution and contract are on file and available for public inspection in the office of the clerk.”

The minutes indicate that resolutions were adopted and advertised authorizing the awarding of contracts or agreements for “professional services” per N.J.S.A. 40A:11-5 as follows:

- | | |
|--|-----------------------------------|
| - Forensic Auditing and Budget Consulting Services | - Municipal Auditing Services |
| - Legal Services - Redevelopment Counsel | - Legal Services - Bond Counsel |
| - Legal Services - Special OPRA Attorney | - Legal Services - Labor Counsel |
| - Legal Services - Water Commission Attorney | - Grant Consulting |
| - Legal Services - Historic Preservation Attorney | - Ombudsman |
| - Legal Services- Conflicts Counsel | - Special Tax Appeal Counsel |
| - Health Insurance Brokerage/Consulting Services | - IT Consulting Services |
| - Risk Management Consulting Services | - IT Cybersecurity Services |
| - Conflict Counsel Services | - Municipal Planner Services |
| - Consulting Engineering Services/Water | - Consulting Engineering Services |
| - Municipal I Educational Consultant | - General Legal Services |

There are additional exceptions noted in N.J.S.A. 40A:11-5, et seq., for contracts which may be negotiated and awarded by resolution of the governing body without public advertising for bids. The Town has also awarded contracts under other exceptions noted in N.J.S.A. 40A:11-5 including:

- N.J.S.A. 40A:11-5.1(dd), the provision or performance of goods or services for the support or maintenance of proprietary computer hardware and software, except that this provision shall not be utilized to acquire or upgrade non-proprietary hardware or to acquire or update non-proprietary software;
- N.J.S.A. 40A:11-5.1(f), the supplying of any product or the rendering of any service by a public utility, which is subject to the jurisdiction of the Board of Public Utilities or the Federal Energy Regulatory Commission or its successor, in accordance with tariffs and schedules of charges made, charged or exacted, filed with the board or commission, and
- N.J.S.A. 40A:11-5.1(x) The printing of municipal ordinances or other services necessarily incurred in connection with the revision and codification of municipal ordinances.

N.J.S.A. 40A:11-6.1(b) states: “When in excess of the bid threshold, and after documented effort by the contracting agent [the Town] to secure competitive quotations, a contract for extraordinary unspecifiable services may be awarded upon a determination in writing by the contracting agent that the solicitation of competitive quotations is impracticable. Any such contract shall be awarded by resolution of the governing body.”

N.J.S.A. 40A:11-5.1(a)(ii) further states: “The governing body shall in each instance state supporting reasons for its action in the resolution awarding each [extraordinary unspecifiable service] contract and reasons for its action in the resolution awarding each contract and shall forthwith cause to be printed...a brief notice of the award of such contract.”

CONTRACTS AND AGREEMENTS EXCEPTED FROM PUBLIC ADVERTISEMENT FOR BIDS PER N.J.S.A. 40A:11-5, et seq., 40A:11-6.1(b) AND 40A:11-12 (continued)

The notice shall be printed once, in the official newspaper, a brief notice stating the nature, duration, service and amount of the contract, and that the resolution and contract are on file and available for public inspection in the office of the clerk.

The minutes indicate that no resolutions were adopted and advertised authorizing the awarding of contracts or agreements for “extraordinary unspecifiable services” per N.J.S.A. 40A:11-6.1(b).

EXPENDITURE LESS THAN BID THRESHOLD, BUT 15% OR MORE OF THAT AMOUNT PER N.J.S.A. 40A:11-6.1

N.J.S.A. 40A:11-6.1 states: “For all contracts that in the aggregate are less than the bid threshold but 15 percent or more of that amount, except for paragraph (a) of subsection (1) of section 5 of P.L. 1971, c.198 (C.40A:11-5) concerning professional services and paragraph (b) of that subsection concerning work by employees of the contracting unit, the contracting unit shall award the contract after soliciting at least two competitive quotations, if practicable.” The Town advised us that quotations were, for the most part, solicited for items, the cost of which was \$6,000 or more, within the terms of N.J.S.A. 40A:11-6.1.

COLLECTION OF INTEREST ON DELINQUENT TAXES AND ASSESSMENTS

Statutes provide the method for authorizing interest and the maximum rate to be charged for the nonpayment of taxes, or assessments on or before the date when they would become delinquent.

On January 1, 2021, the governing body adopted a resolution authorizing interest to be charged on delinquent taxes and delinquent sewer transmission fees as follows:

8% per year on sums up to \$1,500.00 and 18% per year on the portion of tax and sewer transmission delinquencies in excess of \$1,500.00 to be calculated from the date the tax and sewer transmission fees were payable until the date of actual payment.

In addition, the governing body adopted a resolution authorizing a penalty to be charged on delinquent taxes as follows:

6% penalty for delinquency in excess of \$10,000.00 outstanding at year end, with the penalty calculated with interest included in the total delinquency.

In all instances tested, the collector’s records indicate that interest was collected in accordance with the foregoing resolution.

DELINQUENT TAXES AND TAX TITLE LIENS

The Town did not hold a traditional tax sale but held a bulk levy tax sale and was complete.

The following comparison is made of the number of tax title liens receivable for the most recent three years:

<u>Year Ended</u>	<u>Number of Liens</u>
Dec. 31, 2021	27
Dec. 31, 2020	27
Dec. 31, 2019	27

It is essential to good management that all means provided by statute be utilized to liquidate tax title liens in order to get such properties back on a tax paying basis.

CHANGE ORDERS EXCEEDING 20 PERCENT OF ORIGINALLY AWARDED CONTRACT PRICE

Change orders exceeding the originally awarded contract price by more than 20% are allowed only in limited instances. The authorization process requires a resolution of the governing body and an affidavit of publication for notice in an officially designated newspaper of the entity. The Town has certified in its 2021 budget no orders which exceeded 20% of the originally awarded contract during 2021.

**TOWN OF DOVER
COMMENTS AND RECOMMENDATIONS
FOR THE YEAR ENDED DECEMBER 31, 2021**

Comment 1: State Grant Reserves

There are state grant reserves for Hepatitis B Grants with balances that have been inactive for more than 5 years and have no offsetting receivables as follows:

<u>Years Since Last Activity</u>	<u>Year of Last Activity</u>	<u>Amount Reserved</u>
5 or more	2006	\$ 686.00
5 or more	2005	1,132.00
5 or more	2004	<u>272.21</u>
		<u>\$ 2,090.21</u>

This comment is repeated from the prior year.

Recommendation:

Grants with dormant reserve balances should be investigated for proper follow-up or disposition, including: whether reserve balances exist as a result of charges to incorrect grant years and whether aged reserves are expendable or must be returned to grantor agencies. Going forward, all grants should be continuously monitored for inactivity and aging.

Comment 2: Purchasing

An audit of expenditures found instances where purchase orders were processed after the invoices were received, whereby “confirming orders”. This comment is repeated from the prior year.

Recommendation:

Purchase orders be processed when contracts are awarded and prior to purchasing goods and services.

Comment 3: Payroll

Overtime was being inputted directly into payroll system by authorized supervisors without formal approval to document monitoring controls. A system for formal approval has been implemented as of date of audit, however was not in effect during period being audited. This comment is repeated from the prior year.

Recommendation:

Although overtime is being inputted directly into payroll system by authorized supervisors, formal approval should be recorded to document monitoring controls.

Comment 4: Capital Ordinances

The analysis of General Capital Fund Cash reports a cash deficit of \$449 for capital ordinance number 30-04 which is over 5 years old. This comment is repeated from the prior year.

Recommendation:

Cash deficits for capital ordinances be funded within 5 years. This comment is repeated from the prior year.

Comment 5: Small Cities CDBG Grant Program

A summary statement on the balance of Small Cities CDBG revolving loan funds was not submitted to the State as required by 24 CFR section 570.489(e)(3). This comment is repeated from the prior year.

Recommendation:

The Small Cities CDBG grant program be administered with knowledge of grant compliance requirements and adequate internal controls over such compliance be implemented.

COMMENTS AND RECOMMENDATIONS
FOR THE YEAR ENDED DECEMBER 31, 2021**

Comment 6: Municipal Court

Audit procedures on the municipal court found: a) multiple deposits not made within forty-eight hours and two out of twenty receipts were incorrectly dated after deposit date; b) three violations older than three years in the Case Processing Follow Up Incomplete Report; c) a case backlog in excess of recommended threshold in monthly Management Reports for Case Management; d) there were tickets assigned but not issued over 6 months that had not been properly recalled; and e) there were special complaints issued that had not been assigned to an officer. This comment is repeated from the prior year.

Recommendation:

Municipal Court receipts should be turned over to Finance Office more frequently to ensure timely deposit and accurately recorded when received. As per Rule 7:8-9(f), once a case is over three years old, and the follow-up procedures available to the municipal court have not been completed, the ticket must be dismissed. Case backlog be reduced to below recommended threshold in monthly Management Reports for Case Management. Tickets assigned but not issued over 6 months be properly recalled and only special complaints assigned to an officer be issued.

Comment 7: Dover Free Public Library

The Dover Free Public Library as a free public library with its own governing Board of Trustees has not had its own annual audit performed and reported separately from the Town. Furthermore, the Town has not determined the legal custodian of funds from sale of asset being held in trust by the Dover Free Public Library. This comment is repeated from the prior year.

Recommendation:

The Dover Free Public Library as a free public library with its own governing Board of Trustees have its own annual audit performed and reported separately from the Town. Furthermore, the Town determine the legal custodian of funds from sale of asset being held in trust by the Dover Free Public Library.

Comment 8: Dover Free Public Library - Investments

Funds from sale of asset being held in trust by the Dover Free Public Library are invested in several mutual fund securities that are not permitted by the Town's cash management plan nor New Jersey statutes applicable to municipalities.

Recommendation:

Dover Free Public Library determine whether it's trust is subject to the Town's cash management plan and New Jersey statutes applicable to municipalities; and if so, have funds held by the trust invested in securities permitted.

Corrective Action

In accordance with regulations promulgated by the Single Audit Act and the Division of Local Government Services, all municipalities are required to prepare and submit to the Division of Local Government Services, a Corrective Action Plan with regard to audit deficiencies. This plan must be approved by formal resolution of the governing body and submitted within 60 days from the date the audit is received.

Status of Prior Years' Audit Recommendations

In accordance with Government Auditing Standards, a review was performed on all prior year's recommendations. With the exception of those findings noted as being repeated from the prior year, corrective action was taken on all prior year recommendations.
